AAAS IF/THEN® AMBASSADORS PROGRAM

IF/THEN® is proud to recognize talented women STEM professionals across a variety of industries as IF/THEN® Ambassadors who will serve as high profile role models for middle school girls. In partnership with the American Association for the Advancement of Science (AAAS), IF/THEN® created the AAAS IF/THEN® Ambassadors Program that brings together 125 of these innovators for specialized media and communications training. Using a talent agency model, IF/THEN® will support the Ambassadors and their inspiring work by showcasing them on a national platform. AAAS IF/THEN® Ambassadors will share stories of their STEM journeys and the many ways in which they use STEM to solve problems and create new possibilities for the future.

To learn more about IF/THEN®, visit www.ifthenshecan.org.

IF WE SUPPORT A WOMAN IN STEM, THEN SHE CAN change the world.
